

Recording & Voice-Over Reference

ADD 5.3 · APPLICATIONS OF DIGITAL
DESIGN

NAME _____

DATE _____

clipping • gain • levels • room tone • scratch track

1. **Room tone:** 10 seconds of silence, mic running. Recorded? _____
2. **Scratch track:** rough first pass, test levels/pacing.
3. **Check levels:** never in the red, still clearly audible.
4. **Final take,** partner watching levels for clipping in real time.

Clipping isn't a style. It's a hard digital error that can't be fixed after the fact. Keep levels healthy while recording.
