

GMetrix SMS: Launch the Premiere Pro Practice Exam

ADD 2.1 · APPLICATIONS OF
DIGITAL DESIGN

NAME _____

DATE _____

PART 1 · LOG IN TO GMETRIX SMS

1. Open **GMetrix SMS** (Applications folder → **GmetrixSMSe**).
2. Click the **Login with Google** button and sign in with your **school Google account**. Don't create a new account.

PART 2 · ENTER OUR CLASS CODE (FIRST TIME ONLY)

3. **Find the code on Schoology**: open our class's Schoology homepage and scroll to **How to Contact Me**. The code is on the **Gmetrix**: line.
4. In GMetrix SMS, click **Redeem Code** in the left sidebar, type the code exactly (including the dash), and click **Redeem Code**.

PART 3 · PRE-LAUNCH SETUP (EVERY TIME YOU LOG ON TO A COMPUTER)

Be patient: steps 8–10 each ask for an **administrator password**. Raise your hand and wait. Your teacher has to type it on every computer in the room, one at a time.

5. Open the **Creative Cloud** app → **Apps** → **Installed apps**. Next to Premiere Pro's **Open** button, click **⋮ (More actions)** → **Open in Rosetta**.
6. When Premiere Pro opens, check that the GMetrix extension loaded: **Window** → **Extensions** should list GMetrix. Not there? Tell your teacher.
7. Quit Premiere Pro (**⌘ Command + Q**).
8. In GMetrix SMS, open **Settings** → **Tasks** tab → **Delete Test Resource Archive** → **Execute**.
9. Click the **Plugins** tab → **Premiere Pro** → **Install Premiere Pro Plugin** → **Execute**.
10. On the same page: **Reinstall Premiere Pro Plugin Workspace Files** → **Execute**.

PART 4 · LAUNCH THE PREMIERE PRO PRACTICE EXAM

11. In your list of tests, find the **Adobe Certified Professional: Premiere Pro** practice exam (2025 exam version) and select it.
12. Choose **Testing Mode** and start the exam. GMetrix opens Premiere Pro for you.
13. Wait for the GMetrix panel to appear in Premiere Pro with your first task. Don't click anything while it loads.
14. Work the whole exam independently, then submit it. On the results screen, press **⌘ Command + Shift + 3** to screenshot the whole screen. It saves to your **Desktop**; move it to your Screenshots folder.

TROUBLESHOOTING

PROBLEM	TRY THIS
Can't log in	Use Login with Google and pick your school account, not a personal one.
"Invalid code"	Re-type it from Schoology exactly, including the dash. Still invalid? Tell your teacher.
GMetrix panel never appears, or the exam won't start	Quit Premiere Pro (⌘Q), redo Part 3 (steps 5–10), then start the exam again.
Exam looks frozen at the start of a question	Premiere is converting the sample project files. Let it finish; it doesn't count against the timer.
GMetrix SMS says it can't find Premiere Pro	Tell your teacher.
