

GMetrix SMS: Launch the Illustrator Practice Exam

FDD 2.1 · FOUNDATIONS OF DIGITAL DESIGN

NAME

DATE

PART 1 · LOG IN TO GMETRIX SMS

1. Open **GMetrix SMS** (Applications folder → **GmetrixSMSe**).
2. Click the **Login with Google** button and sign in with your **school Google account**. Don't create a new account.

PART 2 · ENTER OUR CLASS CODE (FIRST TIME ONLY)

3. **Find the code on Schoology**: open our class's Schoology homepage and scroll to **How to Contact Me**. The code is on the **Gmetrix**: line (it starts with **Cambron-**).
4. In GMetrix SMS, click **Redeem Code** in the left sidebar, type the code exactly (including the dash), and click **Redeem Code**.

PART 3 · PRE-LAUNCH SETUP (EVERY TIME YOU LOG ON TO A COMPUTER)

Be patient: steps 8–10 each ask for an **administrator password**. Raise your hand and wait. Your teacher has to type it on every computer in the room, one at a time.

5. Open the **Creative Cloud** app → **Apps** → **Installed apps**. Next to Illustrator's **Open** button, click **⋮ (More actions)** → **Open in Rosetta**.
6. When Illustrator opens, check that the GMetrix extension loaded: **Window** → **Extensions (Legacy)** should list GMetrix. Not there? Tell your teacher.
7. Quit Illustrator (⌘ **Command** + **Q**).
8. In GMetrix SMS, open **Settings** → **Tasks** tab → **Delete Test Resource Archive** → **Execute**.
9. Click the **Plugins** tab → **Illustrator** → **Install Illustrator Plugin** → **Execute**.
10. On the same page: **Reinstall Illustrator Plugin Workspace Files** → **Execute**.

PART 4 · LAUNCH THE ILLUSTRATOR PRACTICE EXAM

11. In your list of tests, find the **Adobe Certified Professional: Illustrator** practice exam (2025 exam version) and select it.
12. Choose **Testing Mode** and start the exam. GMetrix opens Illustrator for you.
13. Wait for the GMetrix panel to appear in Illustrator with your first task. Don't click anything while it loads.
14. Work the whole exam independently, then submit it. On the results screen, press ⌘ **Command** + **Shift** + **3** to screenshot the whole screen. It saves to your **Desktop**; move it to your Screenshots folder.

TROUBLESHOOTING

PROBLEM	TRY THIS
Can't log in	Use Login with Google and pick your school account, not a personal one.
"Invalid code"	Re-type it from Schoology exactly, including the dash. Still invalid? Tell your teacher.
GMetrix panel never appears, or the exam won't start	Quit Illustrator (⌘Q), redo Part 3 (steps 5–10), then start the exam again.
Exam looks frozen at the start	Wait a full minute before clicking anything; files load in the background.
GMetrix SMS says it can't find Illustrator	Tell your teacher.
