

NAME _____

DATE _____

Four tools to recreate your paper comp digitally, that's it for today.

Shape Tools (Rectangle, Ellipse)

Build up any geometric forms in your design.

Line Segment Tool

Draws straight lines. Hold Shift while dragging to keep them perfectly horizontal, vertical, or at a 45° angle.

Fill Color (Swatches Panel)

Click a shape, then pick a color from the Swatches panel to color it in.

Selection Tool

Move, resize, and layer your shapes on top of each other.

Not covered today: the Pen tool, gradients, and effects, those come in later units. Just these four for now.
