A strong prompt names three things: a **subject**, an **art style**, and a **color palette or mood**. Vague prompts produce unpredictable results.

Draft and refine your prompt below.

1. **Subject** — what is the artwork of? _____

2. **Style** — flat/geometric, hand-drawn, retro, line art, other?

3. **Color palette / mood** — specific colors, or a feeling (bold, muted, playful)?

4. **Full prompt (combine the above):**

5. **Revised prompt** (after seeing your first results — what did you change, and why?):

Remember: a generated result is a **starting point**, not a finished asset. Plan to hand-edit whatever you select.
