

ADD 6.4 | Guided Notes: Mattes, Masks & Picture-in-Picture

NAME _____

alpha channel • mask • picture-in-picture • track matte

1. A _____ is a path drawn directly on a clip to hide or reveal part of it.
2. A _____ uses one clip's luminance or alpha to control the transparency of another clip layered above or below it.
3. The _____ is the part of a pixel that stores transparency information, separate from color data.
4. A smaller video frame displayed within a larger one is called _____.

Discuss: You want text to reveal a video clip through its letters, animated. Which technique from today does that, and what controls the reveal's shape?
