

S5 | Trend Research: International Poster Gallery Walk

NAME _____

Browse the gallery at intl.international/posters/. Before you pick your own topic and typeface, spend a few minutes looking at real, contemporary poster design from around the world. Look for **patterns**—things you see repeated across multiple posters—in color, type treatment, layout, and how each poster communicates its message with almost no photography.

1. **Recall:** Name one trend (a color choice, type treatment, or layout habit) you saw repeated across more than one poster.

2. **Analysis:** Pick one poster you found effective and one you didn't. What specifically made each one work or not work?

3. **Synthesis/Extension:** Name one trend or technique from today's gallery walk you plan to try in your own poster, and why it fits the topic you're considering.
